The contrast between the hypocritical Voor-nees, with bad war-time record, and his ater-day professions of friendliness for the veterans, and the young Congressman, who had done so much for the soldiers, in so short a time, was brought out with telling effect. The bill Mr. Overstreet introduced making a pension a vested right was also referred to. Two years ago Mr. Overstreet lowered the Democratic majority in Johnson county from 450 to 73, and this year, Mr. Brown promised he would wipe it out en-tirely and bring the county into the Repub-lican ranks. William Bosson, of the Marlon county delegation, seconded the nomination of Mr. Overstreet. John W. Ray said he wanted to "vote for Jesse because his father was one of the old guard of '56." By ac-clamation Mr. Overstreet was nominated. He appeared and was warmly received.

MR. OVERSTREET SPEAKS. After expressing his thanks, Mr. Overstreet said he found himself in a unique position, serving a term in Congress from one district and suddenly introduced to another district for indorsement. Yet, Mr. Overstreet said, he was born within twenty miles of the convention hall, and the territory of Johnson and Marion counties was cherished land to him. He lived in the neighborhood all his life. The fertile fields of Johnson county were now joined with the metropolis of one of the greatest States in the Union. The position of the district in commercial relations was also unique. The men who toll in the factories of the metropolis and the sturdy workers of the soil in Johnson county are joined together in one political district. The harmony of these two great interests, Mr. Overstreet showed, types the very foundation principles of the Republican party, and it is well that the result is as great as the origin. Indianancies had done much better than its sister ells had done much better than its sister les during the hard times, and this only lustrated that it is one of the soundest flures in proportion to population than else-

Mr. Overstreet then reviewed the efforts of the present House of Representatives to reand these efforts were made in the face of the chief executive's objections. Having found the treasury depleted and nfidence badly shaken, the Republican marity of the House, placing patriotism ove party, and believing "he serves his party best who serves his country best," pre-sared a measure for the immediate relief of the treasury known as the "bond bill," and a revenue measure, and passed both with commendable speed and a strength of vote that was both surprising and gratifying. Washington in a few days.

NEW CASTLE, Ind., April 16 .- Henry U. Johnson received the nomination as Representative in Congress from the Sixth district at the convention held here to-day. Thus ends the greatest political battle for congressional honors ever waged in this district. For weeks there has been but one topic, and beside it all other matters dwindled into insignificance. Delegations from the different countles began arriving last evening, and by 8 o'clock the hotel corridors were crowded. There had been various rumors affoat that a "dark horse" would be sprung by some of the Watson countles in preference to casting a vote for Johnson, but these rumors were soon dispelled, and it was soon clear that Johnson would practically have no opposition. ganized a McKinfey Club. They have pre-Mr. Watson arrived from Washington during | fected organization by electing the following the day, and late last night held a caucus with his intimate friends here for the purpose of outiling the policy he should pursue in the convention to-day. He decided he would withdraw his name from the conven-tion. The delegations which came in on the orning trains to-day were met by a band and escorted to the Opera House. Nearly every business house in the city was decorated. At 10:30 o'clock District Committeeman L. P. Mitchell called the convention to er and Hop. M. E. Forkner, of New Caswas chosen chairman and W. S. Mont-ery, of Greenfield, secretary. After the tment of committees on resolutions, ntials and permanent organization the meeeting was adjourned until 1:30 p. m., at which hour the Opera House was well crowded. On the one side were ranged Frankijn, Rush. Shelby and Hancock counties, and on er Henry, Wayne, Fayette and Union

There was a fight on the resolutions, and here Mr. Watson's friends won a decided victory by knocking out the unit system, which resulted in his defeat. It was decided that hereafter the primaries in the Sixth shall be held in all counties on the same day, and the man receiving the largest number of votes in the district shall be the nominee for Con-

In addition to this the resolutions recomended the State convention to instruct the delegates at large to vote and work for the nomination of McKinley at St. Louis, and Frank M. Milikan was indorsed for delegate The roll of the countles was next called

for nominations for congressional candidates. Hon. John Payne, of Fayette county, pre-sented the name of H. U. Johnson, and Rush, by Colonel Edward Wolf, presented the name of Hon. James E. Watson. When the vote was called for Mr. Watson arose and demanded recognition from the chairman. His appearance immediately precipitated a furious Watson demonstration, his friends standing up and cheering and shouting his name. The opposition was taken by surprise, and, fearing some coup, began to cry Watson down. They remembered the dramatic scene in that other convention, where Watson was not a candidate, but where his on was not a candidate, but where his caused a stampede that resulted in nomination. Chairman Forkner refused scognize Watson, and ordered the vote roceed, amid a chorus of groans from the Watson counties. At this point Capt. R. A. Black, of Greenfield, arose to a point of order and said that, inasmuch as it was Mr. Watson's purpose to withdraw his name from the convention, he should be allowed to speak. Chairman Forkner, seeing that Johnson was in no danger, decided that Mr. Watson had the floor. Mr. Watson had remained standing during the discussion had remained standing during the discussion had remained standing during the discussion.

the floor. Mr. Watson had remained standing during the discussion, occasionally addressing the Chair. The recognition obtained, he spoke as follows:

"I am'a Republican and I desire the success of the Republican party above every political consideration. And I hope after the convention is over, and we shall all have gone back to our respective counties and resumed business, that a movement will be inaugurated whereby every Republican county in the ed whereby every Republican county in the district shall increase its majority; that Hancock county may throw off the shackles of Democracy, and Franklin and Shelby reduce their Democratic majority. Democracy, and Franklin and Shelby reduce their Democratic majorities. I trust all scars will be healed and all wounds be bound up. I know when I have had enough. Having heard the voice of the people, I hearken, and in the interest of unity and harmony I withdraw my name from this convention and move to make the nomination of Mr. Johnson unanimous."

Campbell, of the Shelby delegation, created considerable excitement by announcing: "If Johnson wants the vote of Shelby and Hancock countles he will have to get down on all fours before Mr. Watson and beg that gentleman's pardon." Sid Conger, after the delegation had reconsidered, arose and announced the vote of Shelby for Johnson. This left the ballot: Johnson, 20; Watson, 21, Hancock refusing absolutely to vote for Johnson. Good feeiing prevailed, but it was very evident that it cost a struggle on the part of some of the delegations to give Watson up.

At the conclusion of the convention business Hon. John L. Griffithal of Indianapolis, and Judge Todd, of Biuffton, both candidates for Governor, made short speeches.

FIFTH DISTRICT. No Dissenting Voice Against Faris's Renomination.

MARTINSVILLE, Ind., April 16 .- There was a large and enthusiastic meeting of the Republicans of the Fifth district here to-day. The congressional convention was called to order by C. B. Case, of Greencastle, as chairman. George M. Allen, of Terre Haute, was chosen secretary. Judge John V. Hadley, of Danville, Hendricks county, placed George W. Faris, of Terre Haute, in nomination for Congress, and the nomination was seconded by each of the other countles in the district, and Mr. Faris was nominated without a dissenting voice. Mr. Faris spoke a half hour. The address increased the enthusiasm. While there were no candidates to compete with Mr. Faris, there could be seen indications that he would not much longer have the right of way. There was Adams, from Parke, early on the ground, who has a host of friends in the district who would not only like to see him in Congress, but would do all in their power to put him there. He is best known as the "gentleman from Parke," who took a leading part on the Republican side in the exciting scenes attending the closing of the last session of the Legis-

Judge Grubbs was chairman of the com mittee on resolutions. The resolutions fa-vored sound money and indorsed both Conressmen Faris and Overstreet. They also indorsed James T. Johnston for Governor The convention also passed the following: "We believe the thirty years of uninter-rupted control of national affairs by the Republican party, and especially the last four years of the administration in the hands of Gen. Benjamin Harrison, of In-diana, to be the most resplendent era of diana, to be the most resplendent era of commercial and political prosperity enjoyed by any nation since the days of civilized by any nation since the days of civilized government began; that we give renewed and unqualified expression of our confidence in the absolute virtue of protection to American industry, and insist that the present tariff law, intended solely to raise revenue—and failing even in that—born and nurtured to life in an atmosphere of free trade, State rights and loose ideas of national beauty he wined from the statute tional honor, be wiped from the statute books; that we reaffirm our faith in the glorious principle of reciprocity, as inau-gurated in the McKinley bill and made immortal by the genius and diplomacy of James G. special to the Indianapolis Journal. RUSHVILLE, Ind., April 16 .- The Democrats of Rushville have been of the notion for some time that they could capture two of three councilmen to be elected at the May election. But an unlooked-for incident in their own stronghold, the Second ward, has dissipated their hopes. Councilman Philip Heeb, who has represented the Second ward for six years, was a candidate for renomination. Richard Purcell, a young man, came out against Heeb about two weeks ago and developed great strength. The aspirations of the "boy candidate" were at first looked on as a joke, but last night as young Purcell marshaled forty of his supporters at the Big Four depot and marched them double file to the Council chamber, in which the convention was held. t was evident that a hard fight had to b le to beat him. On the first ballo eb managers began challenging the Purcell voters, and a big row ensued. For a time an old-fashioned Kentucky convention held the boards. Purcell finally sprang up and said: "Mr. Chairman, I withdraw my name. You can have your blankety-blank nomination, but I'd like to see the man who gets it win. Coal Miners Strike at Star City-Harry Cavelle Helping Spend Gould Dollar- in Paris.

Special to the Indianapolis Journal. ELWOOD, Ind., April 16.-Local window giass manufacturers are greatly alarmed over the outlook for the trade and declare that the present state of affairs is the result of an attempt on the part of the jobbers and brokers to smash the manufacturers' combine and force them to reduce prices by importing foreign glass. They assert that the jobbers have refused to take the amount agreed on, thus allowing stocks to pile up in the plants and thus force an early closing of the plants. The manufacturers' combine has been in control of the trade for some months and in that time the importation of foreign glass has been greater than in any like period for years. This has had the effect of mollifying to a great extent the sharp advance in prices caused by the combine which are now 40 per cent, higher than before they assumed control of the trade. The jobbers appear to have become enraged at being deposed from being in control and are now trying to force the comoine to reduce prices, which will result in the trust going to pieces in a short time. The jobbers expect by continuing the importations of foreign glass to force the manufacturers to come to the jobbers' terms in a few months at least. The closing down of the plants one month earlier makes the year's work short three months and will cut the earnings of the men one-third below the normal. In the struggle between the jobber and manufacturer labor is being crushed between two stones and is getting the worst of it. A similar condition of affairs exists in the plate glass industry and the action of the trust in forcing the jobbers out of business by establishing agencies in the principal centers of distribution it is feared will precipitate a fight between the jobbers and the trust. It is thought this action on the part of the trust was taken to forestall an attempt on the part of the jobbers to compel manufacturers to sell to certain job-bers who could handle a specified amount each year, all their product thus forming a jobbers trust and placing the manufac-turers and consumers at its mercy. Should the jobbers begin now to import foreign glass it would greatly complicate affairs. Convention Sunday of Glass Workers

Special to the Indianapolis Journal. Three weeks ago the machine runners were on by the ton, but the company decided to put the machine runners on by the day, which caused a short strike, after which the men agreed to accept the company's terms and returned to work at district prices. These were: Machine runners, \$2.25 shooters, \$2; loaders, \$1.80. A committee of miners from Alum Cave waited on the miners at Star City and persuaded them to quit work until the company agreed to allow the men to return to work by the ton. The Alum Cave miners insisted if the Star City miners still continued to work by the day that it would force the entire state to work on the day system. The company is paying the regular district price, and if the men were organized they would be forced to return to work.

SURPLUS REVENUES FOR THE PAST FISCAL YEAR OVER \$21,000,000.

Budget Statement Presented to the House of Commons by the Chancellor of the Exchequer.

LONDON, April 16 .- In the House of Comnons to-day the Chancellor of the Exchequer, Sir Michael Hicks-Beach, made the oudget statement. He said that the surplus for 1895-96 was £4,210,000 and he estimated the expenditure for the current year at f100,-047,000. The Chancellor of the Exchequer said that this had been a wonderful year and one of unexampled revenues in spite of the fact that the expenditures had been the largest since the great war. The surplus was the largest ever known and a larger sum was devoted to the reduction of the national debt than ever known. The condition of the working classes, he continued, judging from the consumption of tea, tobacco and sugar, had materially improved and it was a remarkable fact that while the decrease in the exports and imports for the first six months amounted to £7,531,000, the increase for the second half of the year amounted to £28,228,000. Tea, Sir Michael Hicks-Beach further remarked, was driving coffee out of the market and British and Irish spirits were entirely displacing foreign spirits. The increase in the importation of tea was £10,-000,000 from India and Ceylon and replacing so much Chinese tea. The increase in the import of tobacco was 108,000 pounds.

The increase in the importation of tobacco was £108,000 over the estimate, chiefly for cigarettes. The customs authorities calculated, he added, that £1,000,000 yearly was thrown in gutters in the shape of the ends of oigars and cigarettes. The imports of wine had increased £1256,000: light wines were had increased f1,256,000; light wines were preferred. Beer had increased f617,000; the death duties were f2,881,000 and stamps

Referring to the estimates for the curren that the expenditures were placed at f100,-047,000 and the revenue calculated upon was £101,755,000. Touching on the proposed reduction in expenses, Sir Michael Hicks-Beach said that the government proposed to reduce the maximum land tax from 4d on the pound

FIGHTING RESUMED. Rebels Defeated by the Honduran

Troops in Two Engagements. MANAGUA, Nicaragua, April 16.-A telegram has just been received here from Nagarote, where President Zelaga now is, which says that a messenger from the rebels is now on his way to this city bearing a message from the leaders of the revolt to the United States minister, Lewis Baker. It is supposed here they want Mr. Baker to intervene and arrange a peace between the contestants. The only terms that President Zelaya has, up to this time, been willing to consider are unconditional surrender on the part of the armed forces and the giving up for trial of

The progress of events recently has been steadily against the rebel cause. The government troops have entered on their delayed co-operation with their Honduras allies, and for some days past the two forces, by a combined movement, have slowly but surely been surrounding the rebels at Motombo, La Paz, Chinandega and other points. The govern-ment completed the circle when it took Ceiba Merca. Ceiba Merca was attacked to-day by the rebels, but they were repulsed with heavy loss. General Paiz, of the government force, has taken Las Limas from the rebels, several hundred of them being killed. President Zelaya is himself at Nagarote, directing the ampaign of the government forces.

The Transvaal Arming. LONDON, April 17 .- A dispatch to the Times from Johannesburg points out the threatening condition of affairs in the South African Republic. It says that while President Kruger's policy is to dissuade England from displaying force in South Africa on the plea that it might excite the burgners, the Transvaal is arming to the teeth. The standard also dwells on the anxiety concernng affairs in Matabeleland and says that the Marquis of Lansdowne, Secretary of State for War, Field Marshal Wolseley, the commander-in-chief of the army, and Mr. Cham-berlain, Secretary of State for the Colonies conferred last evening with reference sending reinforcements to South Africa. is understood that some of the troops which

He only obtained 14,000 votes, and has protested, contending that votes in his favor were given to other can-didates. It was the Marquis who brought the sensational charges of fraud against the municipal council which resulted in a riot and considerable legal complications. The

FOR THOMAS B. REED.

(Concluded from First Page.)

friends of Mr. Hobart declare that his candidacy for Vice President will be vigorously pushed. They recognize, however, that if an Eastern man heads the ticket, his chances are weakened and it was for this reason some of his friends endeavored to secure the indorsement of McKinley.

The platform in its first section declares The platform, in its first section, declares for a tariff that will afford adequate income for the expenses of the government, avoid Licrease of the national debt, revive American industries, restore American wages and re-establish the national prosperity on a sound and stable basis. The second section demands that "the reciprocity policy adopted by a Republican administration and destroyed by the Democrats should be restored." The Monroe doctrine is indorsed in the third section, and in the fourth there is a demand for a more virile foreign policy and for an enlargement of the navy and the construction of coast defenses. Section 5 says that the practical sympathy of this Nation should be extended to all peo-ples who have been driven, by oppression and wrong, to take up arms in behalf of the right of self-government. The exclusion of criminal, pauper and anarchistic immigrants is demanded. Discriminating duties in favor of American bottoms is favored. The money plank comes next. It reads:

"The standard value in this country and the other principal commercial nations of the world is gold. Wages and prices have been made and fixed in accordance with this standard, and the welfare of the peo-ple demands that it shall be maintained. We regard the agitation for the free coinage of silver as a serious obstacle to our ountry's prosperity."
The eight section says: "Relying on the discretion of our delegates to voice the preference of the Republicans of New Jersey in the national convention we refrain from hampering their action by specific instructions, and we pledge and devote ourselves to the hearty support of the ticket there to be selected indulging at the same time the hope that redeemed New Jersey may be represented on the national ticket may be represented on the national ticke in the person of her able and distinguished citizen, the Hon. Garrett A. Hobart."
State Senator Edward C. Stokes was chairman of the convention. When, in the course of his address on assuming the chair, the Senator spoke eulogistically of Major Mc-Kinley, there was an outburst of applause

that continued for nearly five minutes. A mention of Mr. Hobart as a fit man for the He forged the names of Calvin Skeen and Hezeklah Hughes to these checks for amounts varying from \$10 to \$150. He also was declared out of order, the Chair ruling that the resolutions should go to the cor utions the convention having previously adopted the platform. Senator Sewell spoke vigorously against instructing the delegates saying that sooner than go to St. Louis with a tag, he would resign. The resolutions of and the convention adjourned. Four of the eight district conventions

McEwan and Edgar were laid on the table lect two delegates to St. Louis were held this forencon, with the following result: First district-Ex-Congressman George Elhrs, of Salem, and ex-Sheriff Robert P. Hand, of Cape May. Second district-Ferdinand W. Roebling, of Mercer, and Capt. A. M. Bradshaw, of Ocean. Fourth district-A. Blair Kelsy, of Warren, and Stephen K. Large, of Hunterdon. Fifth district—William Barbour, of Bergen, and Joseph Quackenbush, of Passaic. The Sixth and Eight districts did not hold conventions to-day, but it is practically agreed that the delegates from the Sixth will be I Frank Park and Charles he Sixth will be J. Frank Fort and Charles Bradley, of Newark, and those of the Eighth will be Frank Bergen, of Elizabeth, and Wiliam Ricker, of Essex. None of the district delegates elected to-day were instructed. The conventions of the Third and Seventh districts were held last week.

Illinois A. P. A. After McKinley. SPRINGFIELD, Ill., April 16.-It developed here to-night that there is a wellorganized plot to defeat McKinley instructions in the Republican convention here April 29. The circular sent out by the advisory committee of the A. P. A. denouncing Mckinley on the ground that he made appointments of Roman Catholics and because Richard Kerens and Stephen B. Elkins, McKinuley managers, have denounced the A. P. A. was read in all A. P. A. lodges in this city to-night, and resolutions were adopted denouncing McKinley, and A. P. A. delegates to the State convention instructed for McKinley will be asked to violate their instructions. It is stated that Hon. J. Otis Humphrey, who is a warm personal friend of Senator Cullom, and who ed the fight in the county convention here for Cullom, but who is a delegate to the national convention from this district, and who is instructed for McKinley, joined the A. P. A. to-night and will lead the fight for Linton, the A. P. A. candidate for presi-

Teller and Shafroth Will Bolt. DENVER, Col., April 16.-The Times says Senator Teller and Representative Shafroth have decided definitely that they will not b candidates for election as delegates to the national Republican convention. They fee that there is no hope that the convention will nominate a candidate or udopt a platform which they can indorse. Both say they cannot support a gold standard candidate for the presidency, not matter by what party nominated, and they would only place them-selves in an embarrassing position by par-ticipating in a convention which is certain to make a position against silver as they consider the Republican convention to be. Mr. Teller says he promised the people of Colorado in 1894 that he would not support a gold standerd man in the campaign of 1896, and that he will not change his position now. WASHINGTON, April 16.-Senator Teller to-day confirmed the report that he did not expect to be a candidate for delegate to the Republican national convention from Colorado, but declined to give his reasons for taking this position.

Does This Mean McKinley! COLUMBUS, O., April 16. - The United Mine Workers' convention to-day adopted a resolution which is practically an indorsement of Major McKinley. A resolution was introduced recommending the nomination of Eugene Debs for President by the Popu list national convention at St. Louis in July. About two-thirds of the delegates were wearing McKinley badges, and W. C. Webb, of Kentucky, said the idea of adopting a resolution favoring a Populist candidate with a peck of McKinley badges in sight was ludicrous. The following substitute was adopted: 'That we recommend to the wage earners of the country the advisability of nominating a representative wage earner nominating a representative wage earner or a well-known friend of the wealth producers for the presidency of the United States to be held next November."

Will Rule or Ruin.

DENVER, Col., April 16.-The Rocky Mountain News says editorially to-day that the representatives of Colorado in the na tional gathering of the Democratic party will walk out of the hall and out of the party unless the platform contains an unqualified unless the platform contains an unqualified declaration for free coinage and the candidate is suited to the platform. After Senator Tillman finished his speech last night the convention reassembled and completed the election of delegates at large and district celegates, making the selection as follows: Delegates at large—C. S. Thomas, of Arapahoe county; T. J. O'Donnell, of Arapahoe county; B. O. Sweeney, of Las Animas, and Adair Wilson, of La Plata. First district—L. W. Speer. Second district—H. H. Seldom-ridge. The convention then adjourned.

Alabama Conventions Split. MONTGOMERY, Ala., April 16,-Three Republican conventions were held in Alabama to-day. The Second district, at Evergreen, elected N. H. Alexander, of Montgomery, and Frank Simmonds, of Evergreen, delegates to St. Louis. The Third district at Union Springs split and elected two sets of delegates, one set for McKinley, the other divided. The Fifth met at Tuskegee and split. One faction elected Douglas Smith, McKinleyite, and Hugh Carson, Reedite. The other faction elected B. Walker, an Allison man, and Henry Carson, Reedite.

For Elkins if He Will Run. CINCINNATI, April 15 .- A dispatch from Elkins, W. Va., states that the Republican county convention of Randolph county, the nome of Senator Stephen B. Reed Talks About Dingley.

special in New York Sun. Speaker Reed, discoursing the other night concerning the personal peculiarity of his friend and spokesman in the House, the Hon. Nelson Dingley, jr., chairman of the committee on ways and means, said: "Now, you know Dingley has got the smallest head of any man in the House of Representatives, but it is chock full of useful information and nothing else. There is not an atom of waste nothing else. There is not an atom of waste room in it, and all his brain is given up to business. Dingley never did anything that was not useful in all his life. When he lay in his cradle he was thinking out r lid, and when he was a boy he more pleasure in studying his le he did in play. I am told by ver sons who knew Dingley in his youth that his mother used to drive him out to play with a broomstick and forbid him to study more than ten hours a day. Dingley has no humor. He has no capacity for the enjoyment of what the rest of the world calls pleasure. His social instincts are not developed. Why, Dingley would rather take a stubby old lead pencil and figure out on the back of an envelope what rate of duty the Romans imposed on Persian wool than sit on a parrow posed on Persian wool than sit on a narrow

## A DIME FOR DIGESTION

The Way to Help Your Stomach Out of a Difficulty.

When you are taken sick with pain in our stomach or chest, nausea, vomiting, readache, dizziness, nervousness, neuralgia, flatulence, constipation, mental depression, weakness, languor, loss of appetite and other similar symptoms, you are infected with the poisons of undigested food.

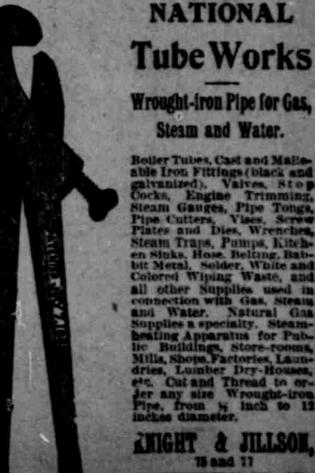

Your stomach needs help. . A dime spent for a sample bottle of the Shaker Digestive Cordial will show you whether or not to expect help from that

If you really are a dyspeptic it will relive you after a few doses. If it does, keep on till you're cured. If not, don't take any

more; you're no dyspeptic Indigestion or dyspepsia is a dreadful disorder, all the more that so few people beieve in its dangerousness.

That is because they don't die of indigesion, but of rheumatism, consumption, pneumonia and other d'seases which they would never have "caught" if their bodies hadn't been starved and weakened with indigestion. Shaker Digestive Cordial acts on the food in your stomach and helps the digestive juices to dissolve it. In this way it aids your stomach to do its work without effort and creates new strength and life for our whole body.
